FRONT-END DEVELOPER

- I'm skilled at delivering pixel perfect UI design Implementations that are user-friendly, fully responsive, and well commented
- I enjoy building things with Javascript development with a decent knowledge of cross browser compatibility. I'm currently getting up to speed with React development

TOOLS/Frameworks

HTML5 | CSS3 | Bootstrap | SASS

Vanilla JavaScript (ES5, ES6)

Fetch API | Axios

Git and Github

I have also worked with MySQL and PHP

EXPERIENCE

HNG Internship, Nigeria —Frontend Developer

JUNE 2020 - AUGUST 2020

- Collaborated with over 7,000 interns in building envato themes, static pages and fullstack web apps.
- Implemented pixel perfect Figma UI designs for Three months.
- Worked with over 400 interns on building [FundMyLaptop](#) . A B2C crowdfunding platform to get quick loans to sponsor the purchase of a new laptop. Payback plan and options are available
- Collaborated with 10 interns to build a web app that registers interns for a virtual internship- **ZURI APP**; This project broadened my skills by working with EJS - a JavaScript template engine [Here's the deployment link we used for testing](#)
- Built the landing page for a futuristic app, during the frontend challenge week - **SAFECHILD APP**. It came out No.34 out of 400 submissions [Here's the link](#)

FrieslandCampina WAMCO, Nig —Development Intern

AUGUST 2019 - MARCH 2020

- It was my responsibility to develop, update and keep records of production activities and employee management using the tools and online systems within FrieslandCampina WAMCO Nigeria Plc.
- I was able to manage the Can Factory's cloud solution and was involved in the entire development cycle of their product.
- Designed a Validated Form for Registration

codeHouseNG — Frontend Developer intern

DECEMBER 2015 - APRIL 2016

- A coding bootcamp where I learnt the fundamentals of Front-end development. I was introduced to about a hundred beginner and intermediate algorithms and data structures
- Built a TIC TAC TOE game https://codepen.io/nwachukwu_emmanuel/full/LNgiVQ
- Built a Pomodoro Clock https://codepen.io/nwachukwu_emmanuel/full/YqJxVR

EDUCATION/ CERTIFICATIONS

Education:

Obafemi Awolowo University – Ile-Ife, Osun state, Nigeria [2016 - 2020]

- Relevant courses includes Computer Programming(Java I, Java II), Data Structures and Algorithms
- Extra Curricular: Guiding and helping newbies through the freecodecamp's curriculum

Technical Courses:

Udemy Course – The Advanced web developer bootcamp [AUG 2019 - DEC 2019]

Udemy Course – The web developer bootcamp [MAY 2018 - AUG 2018]

Freecodecamp – JavaScript Algorithms and Data Structures [FEB 2017 - APR 2017]

Freecodecamp – Responsive web design [JAN 2016 - MAR 2016]

OTHER

- Regularly read articles on Medium and CSS-tricks
- Podcast Lover: favorite – freecodecamp's podcast, Javascript Jabber
- Music: Piano player, Song writer
